Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-33, 36-39, 42-53, 72-75, 96-102, 109-112 drawn to silicon implants and methods for their making.

Group II, claim(s) 34-35, 61-63, 70-71, drawn to semiconductor implants having silicon and methods for their making.

Group III, claim(s) 54-57, 76-95, 103-108, drawn to implants and methods for their making.

Group IV, claim(s) 59-60, 64-69 drawn to semiconductor implants and methods for their making.

2. The inventions listed as Groups I, II, III, and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I requires silicon, but not a semiconductor, while Group II requires silicon and a semiconductor, while Group III does not require either silicon or a semiconductor, while Group IV requires only a semiconductor. Accordingly, the groups do not all share the same special technical features.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 1615

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
